How: Rotation to the New is a conscious and deliberate act of renewing and transforming the core business, while growing into new business and industries?

- **Transform the core**
To provide fuel for growth
Questions to consider: What is required just to stay viable? What is required to increase profits?
- **Grow the Core**
To sustain the fuel growth
Questions to consider : What is required to drive top-line growth in the core business?
- **Grow the New**
To be responsive to obsolescence of old businesses
Questions to consider : What are potential directions for the new growth businesses? Are there multiple options?
- **Wise Pivot**
To get the timing, scale and directions of investments right
Questions to consider: How will new businesses be financed? How can profits from the core be used to fund new businesses?

OUR “ROTATE TO NEW” OPERATING MODEL

01

As a Service Cloud based platform, always current, designed for Analytics, outcome based pricing

02

Cognitive work allocation Automated Request Resolution & guided navigation workflow

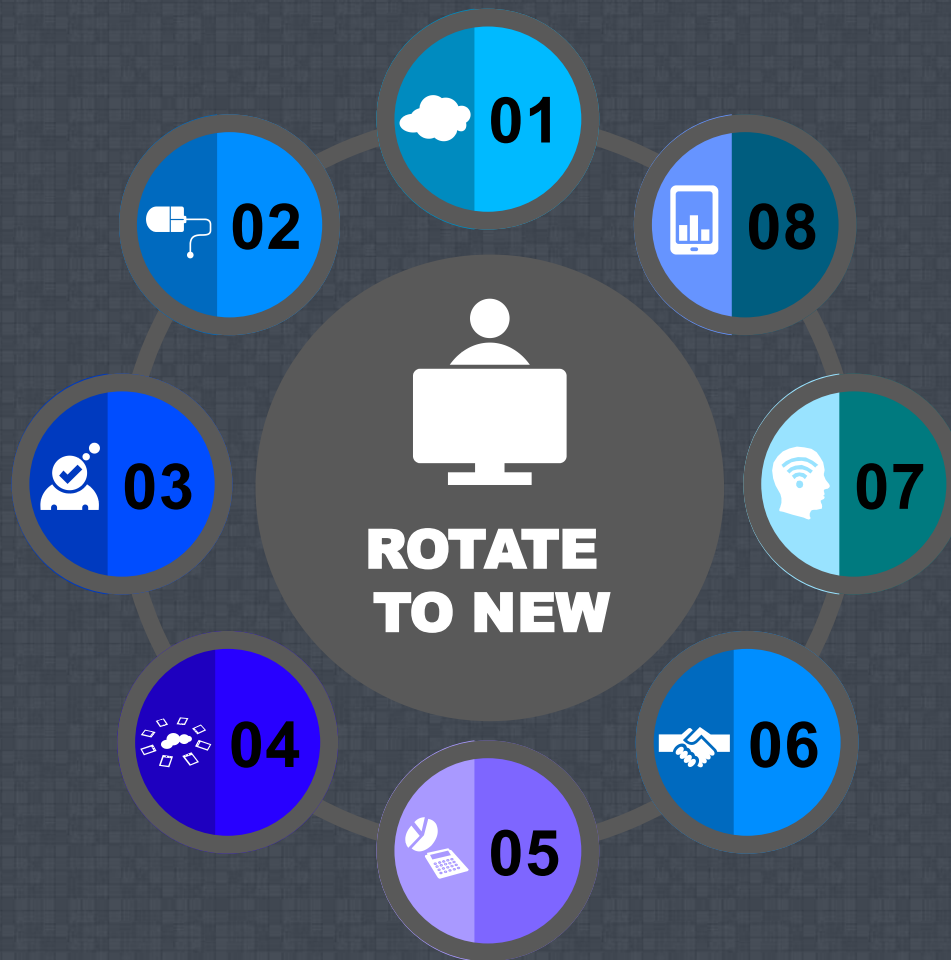

03

Crowdsourced skills Available to support as-a-service, greater access to tier 1.5 and 2 skills

04

Cloud Enabled seamless delivery via single portal across request types, CCCI Integration for Intelligent IVR, greater knowledge share

08

Mobility Mobile device support so tickets can be tracked anywhere

07

Artificial intelligence powered Sentiment analysis and communication advise

06

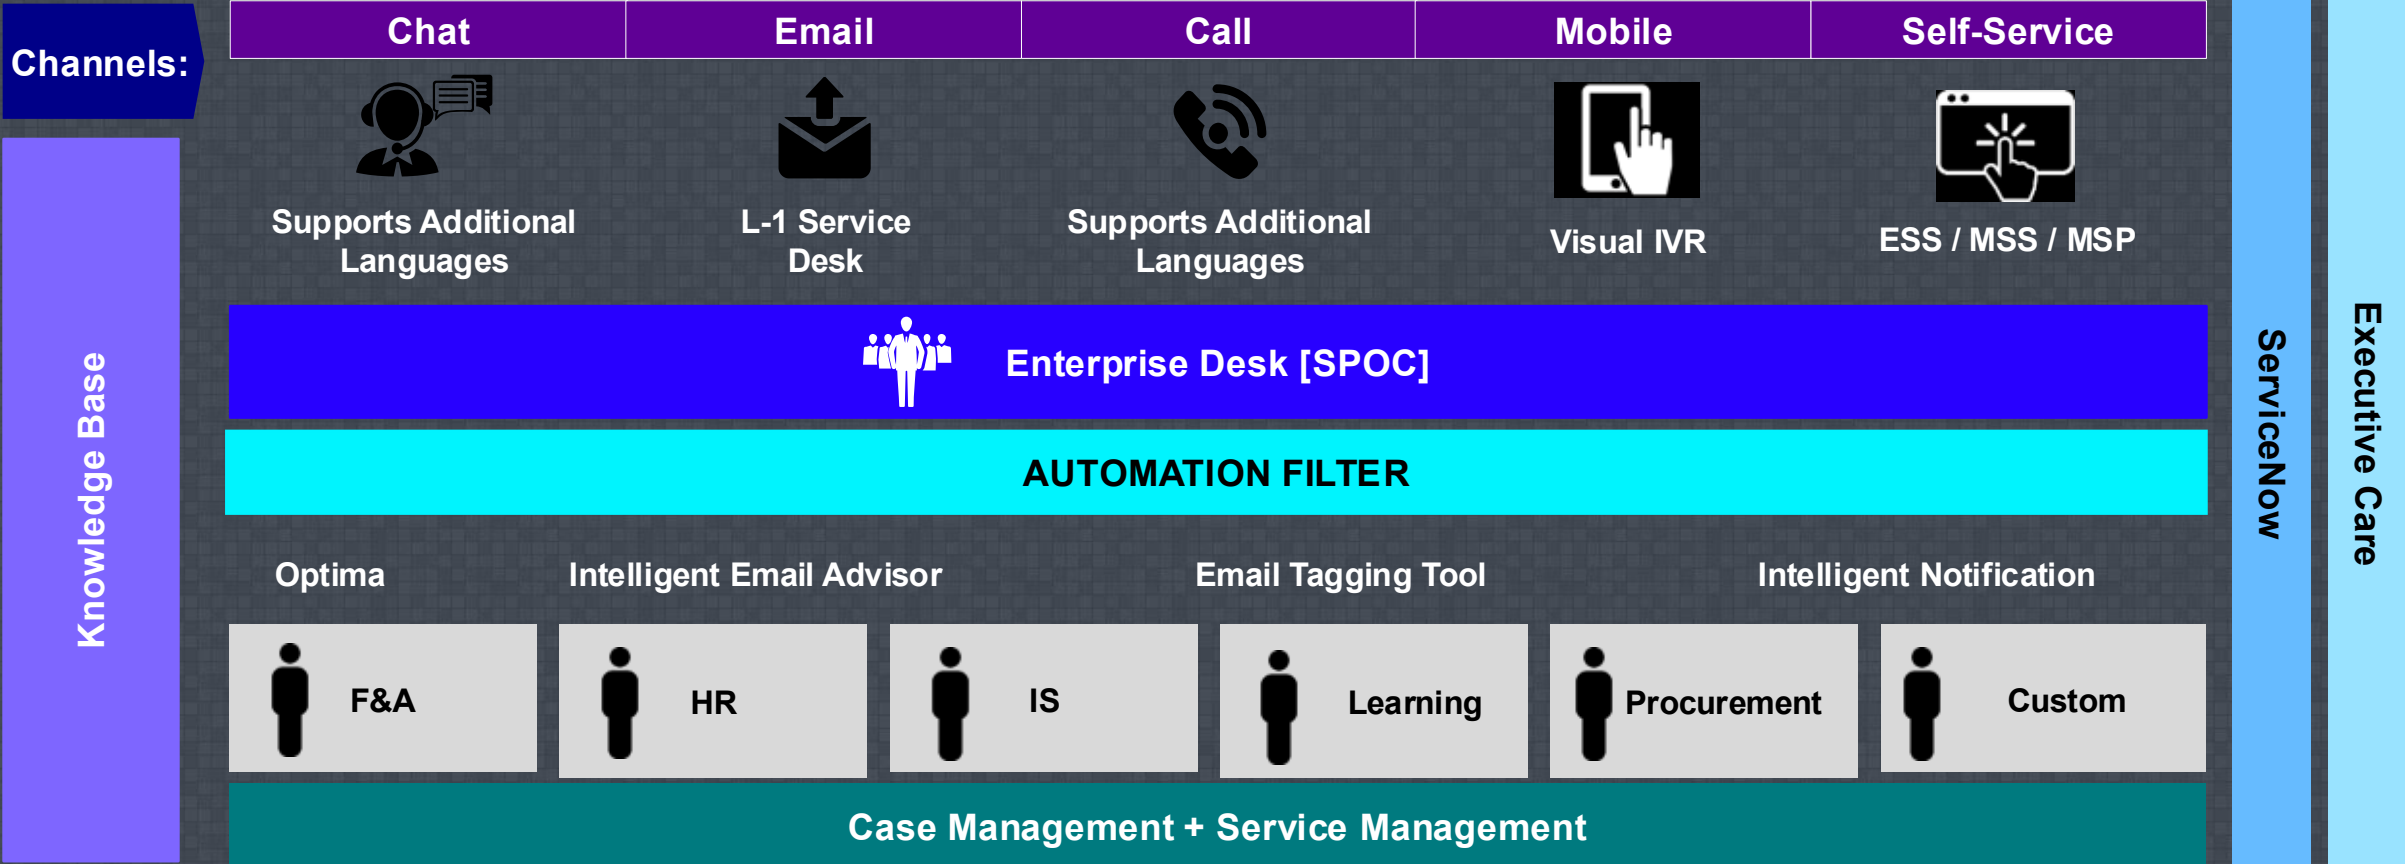

Self Help | Self Healing higher resolution, COI, enhanced Customer Satisfaction

05

Deep Analytics Combined desk enabled insights across request life cycle, providing enterprise insights and driving process changes

SOLUTION BLUEPRINT: FOCUSED ON HASSLE FREE HELPDESK EXPERIENCE

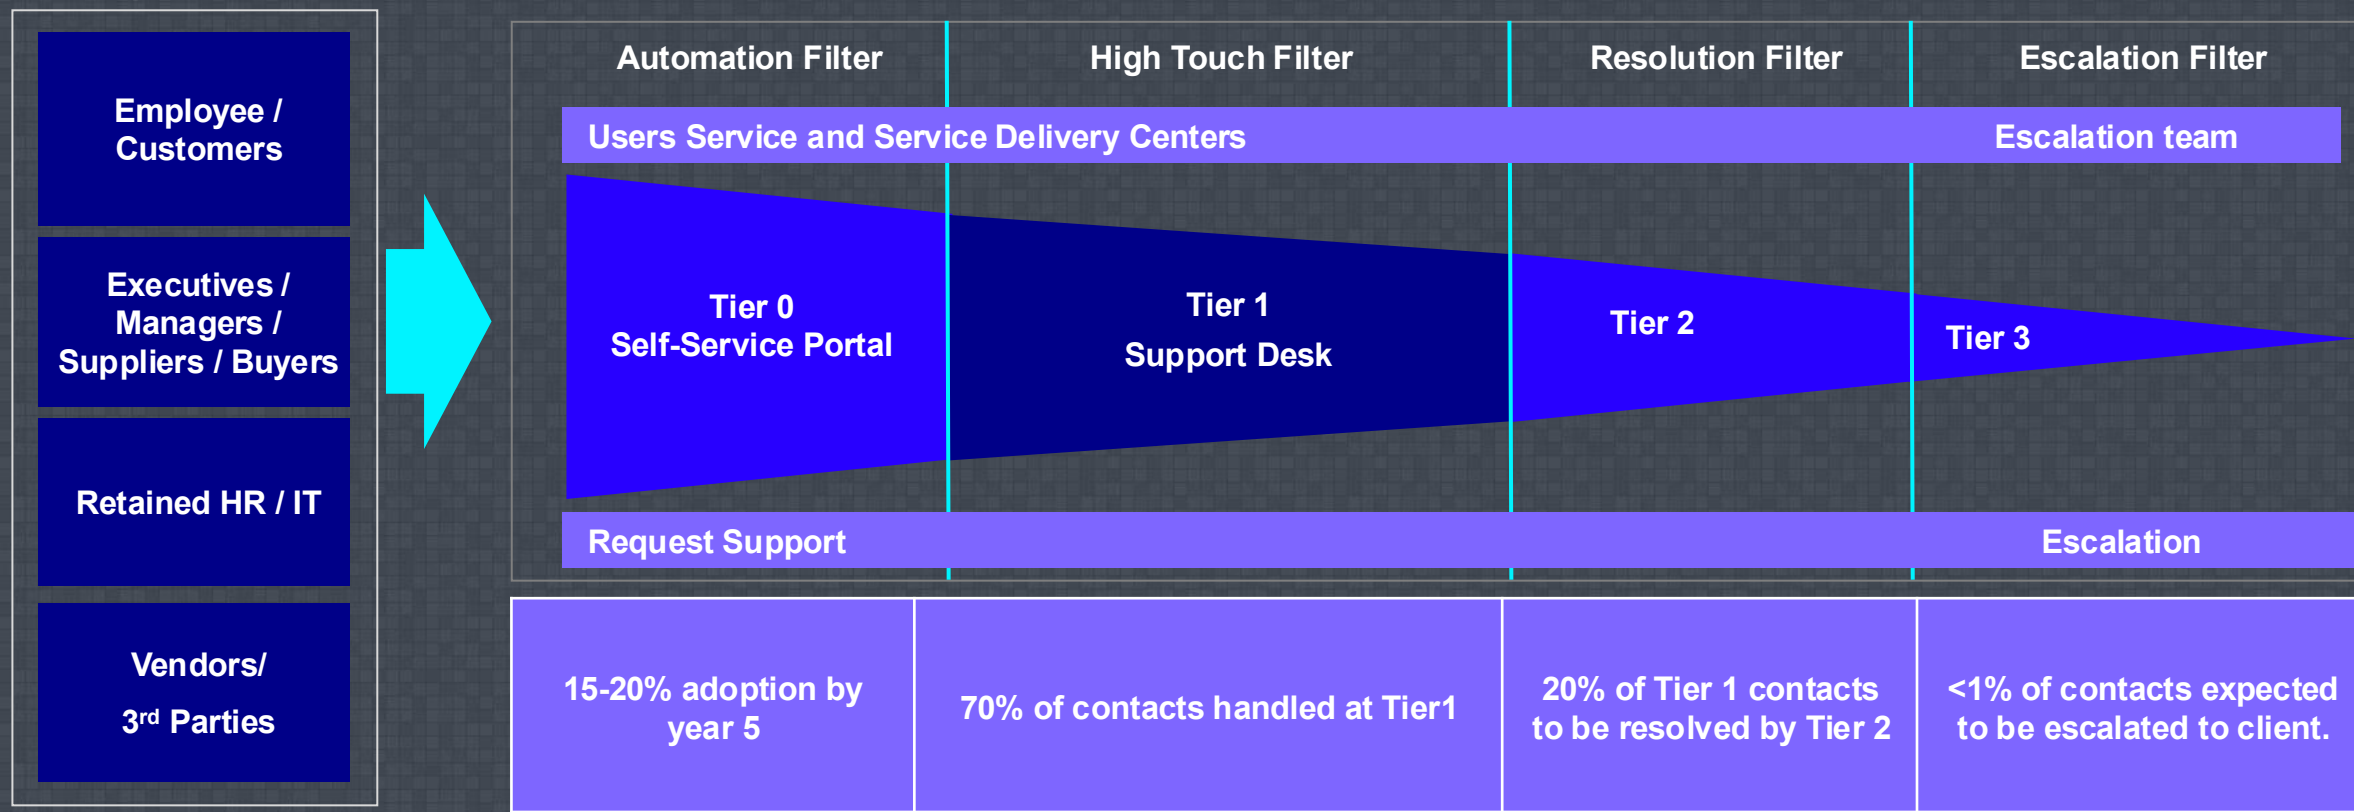

Self service portal –

ESS – Employee Self Service
MSS – Manager Self Service

- Scheduling
- Real-time monitoring and steering

Quality Management

- Training & knowledge management
- Customer satisfaction
- Continuous improvement process

i Planning, steering and quality management capabilities are important in helpdesk due to customer facing activities.

OUR QUALITY FRAMEWORK

Our helpdesk is grounded by quality as a keystone

Data Selection

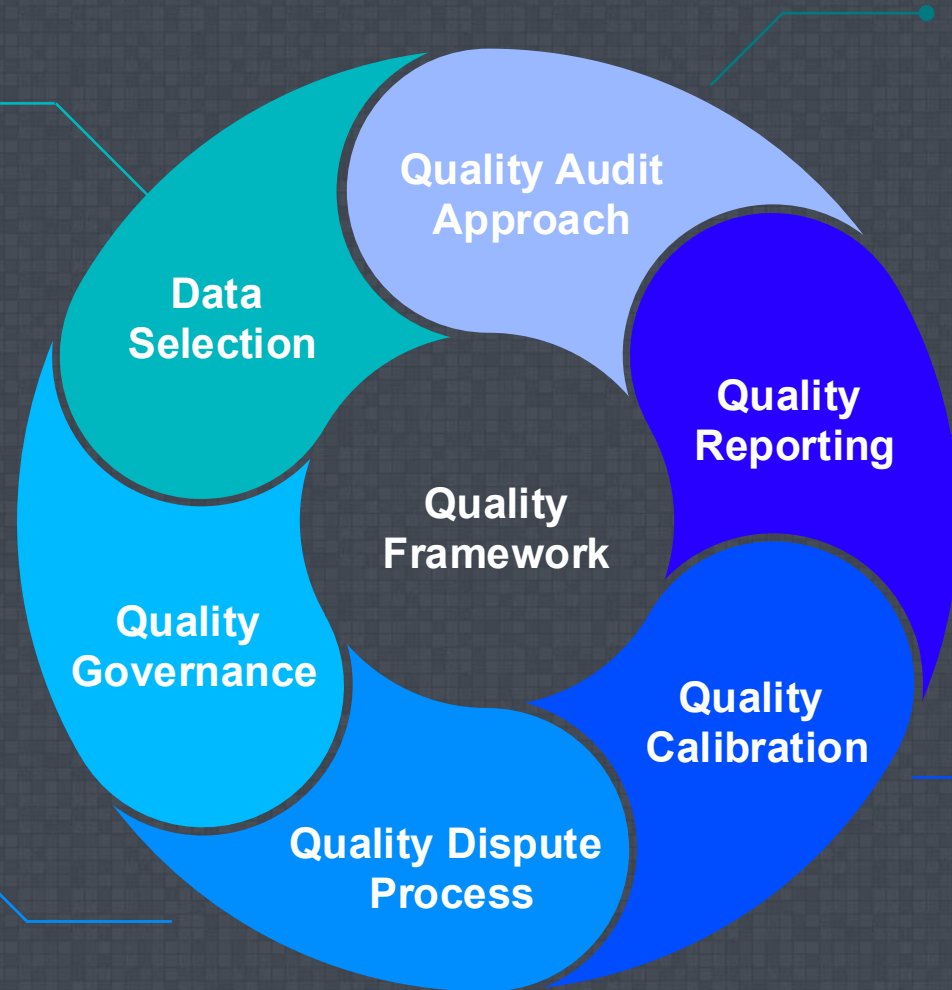

Evaluate a sample with the goal of producing an expected result; process improvement, agent performance improvement.

Quality Governance

Provides direction and oversight to the Quality Team by ensuring audits, reports, resolutions are being published accurately and timely.

Quality Dispute Process

Foster mutual trust with Operations by ensuring that we provide timely and accurate resolution for quality disputes.

Quality Audit Approach

Design evaluation forms through collaboration with all stakeholders. Select transactions to evaluate randomly and strategically; to cover all business days of the month, lines of business, length of calls.

Quality Reporting

Help Operations to meet/exceed key metrics by providing timely feedback through evaluations, coaching, reports and communications.

Quality Calibration

Empower Operations by providing them a venue where they can learn how to evaluate and align their ratings based on agreed guidelines and processes

CONTINUOUS IMPROVEMENT

Our helpdesk solution includes Year-over-Year cost savings productivity from resource efficiency and reduced ticket volume by using predictive analysis to incorporate proactive innovations.

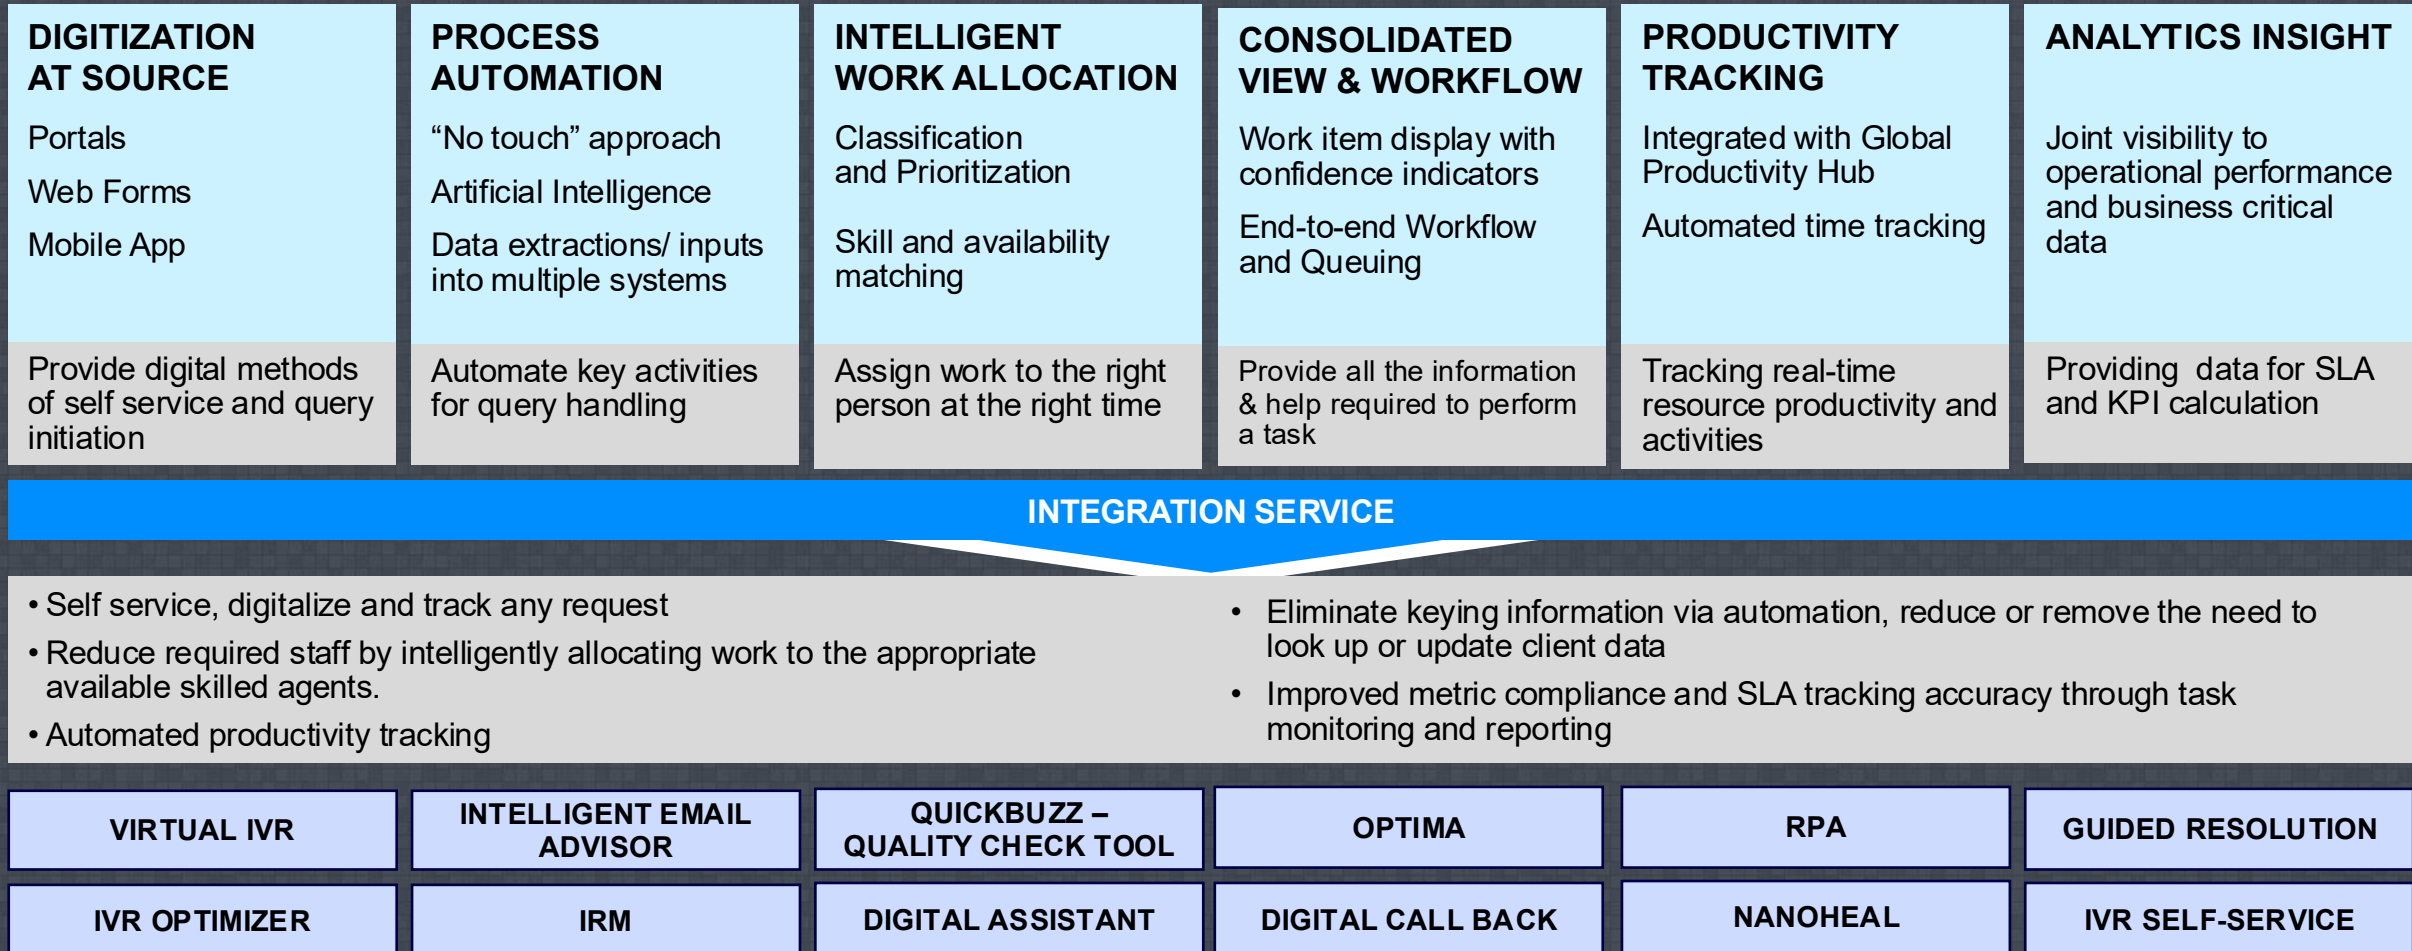

Cycle of Excellence

- Agent Performance is part of an on-going cycle of continuous improvement.
- Each component within the cycle inter-relates and impacts the others, resulting in delivery excellence.
- The process is transparent to customers, ensures consistency across the organization, and is fueled by a performance driven culture.

AUTOMATION

BST in itself is a proud owner & creator of more than **250+** automation tools that caters to the business & automation needs of clients across all work streams. Our clients will hugely benefit from the innovation journey we are going through by picking tools that suits their needs best.

Note – Please reach out to SD key contacts for more details on these tools. [Benefits & Usage]

- Digital boards
- Theme based customer analytics

CUSTOMER SERVICE ANALYTICS

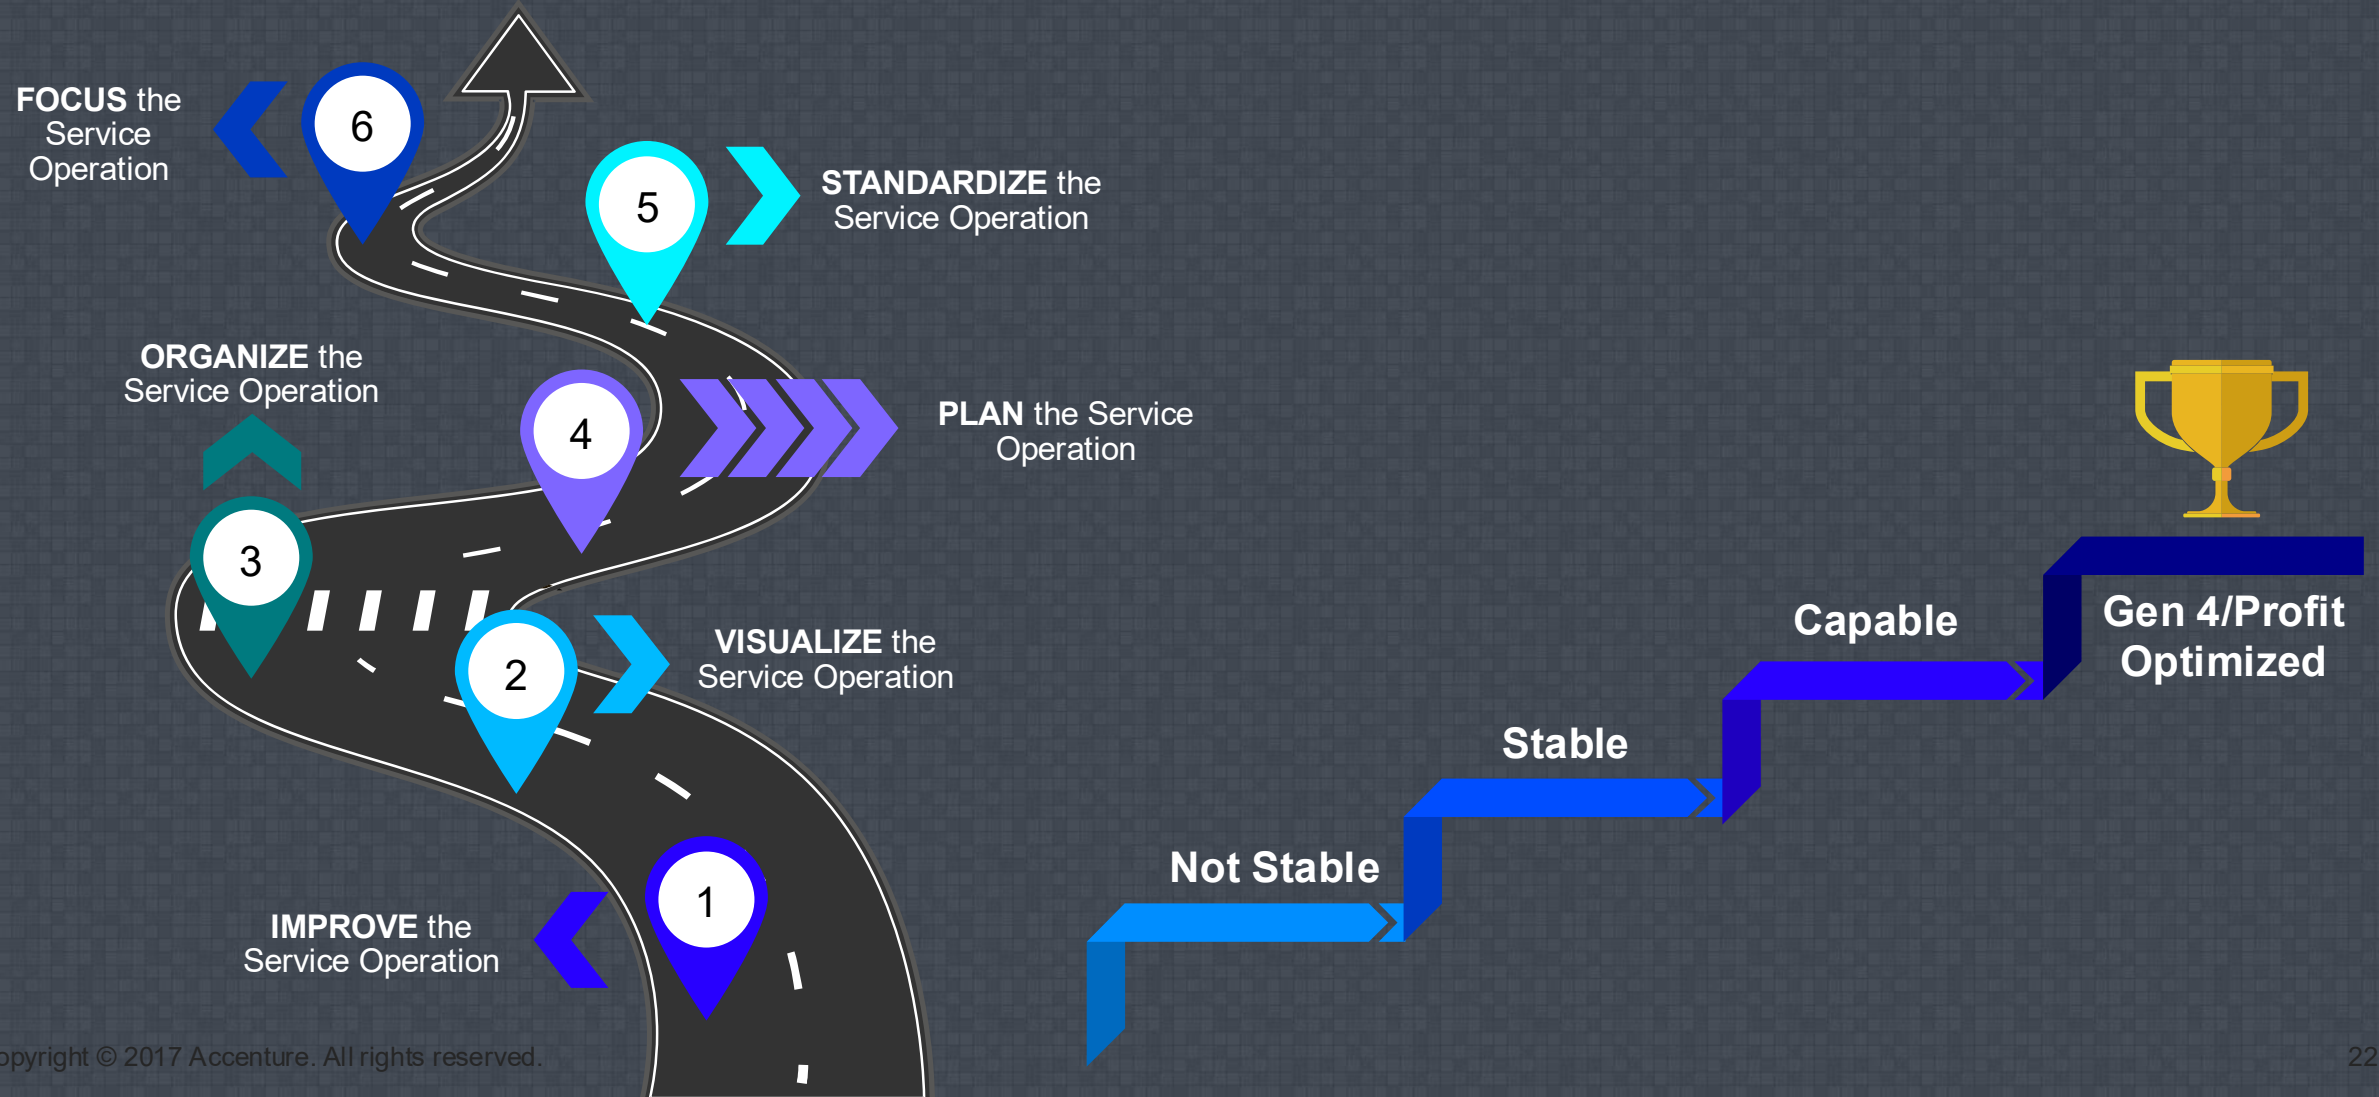

Our Customer Service Analytics drives specific business outcomes for our Customers through industrialized and customized solutions.

OPERATIONAL EXCELLENCE

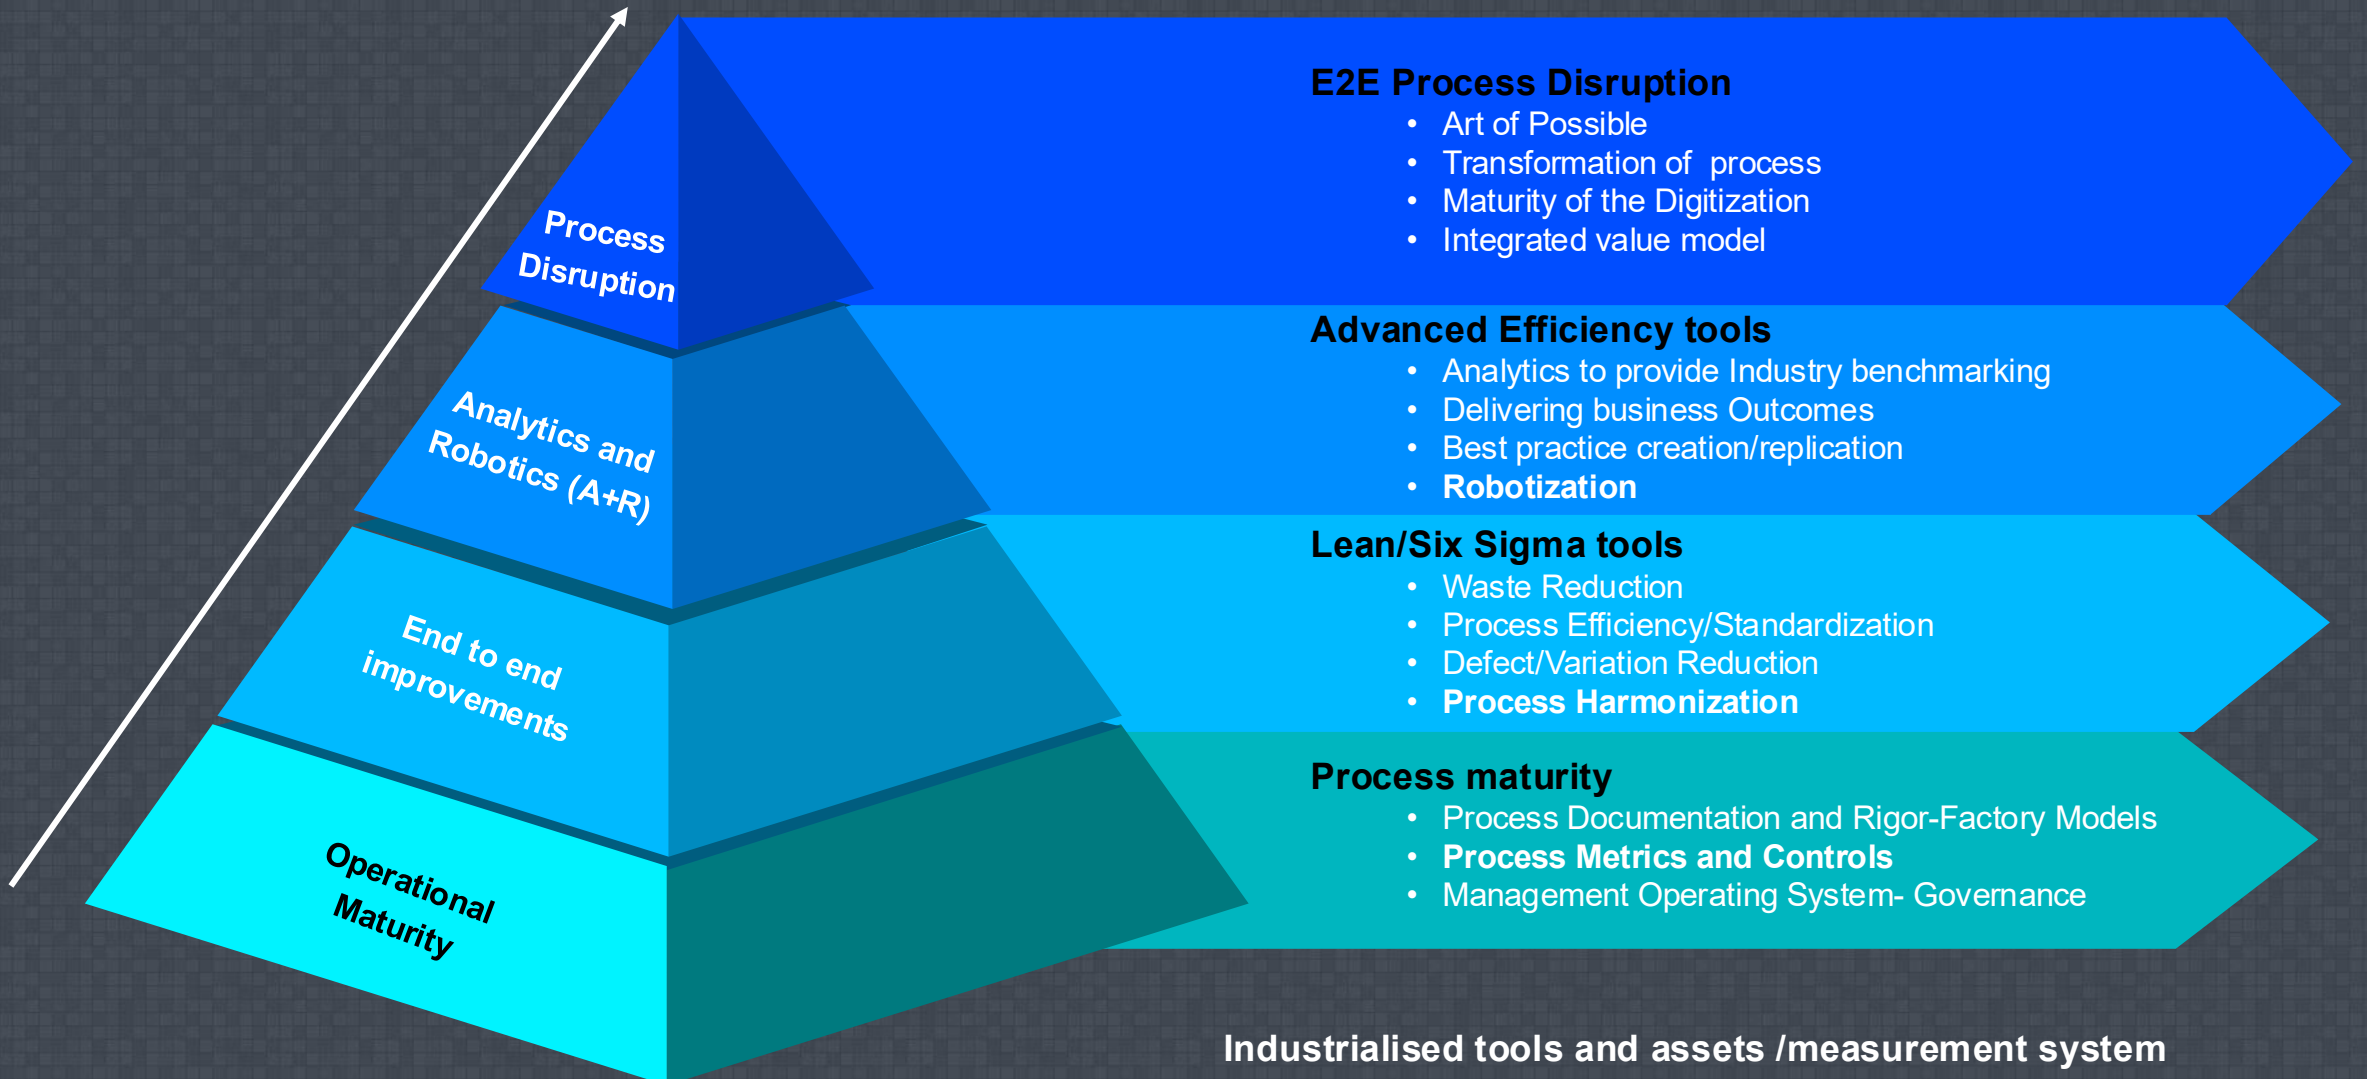

FUNDAMENTALS OF BUSINESS EXCELLENCE – DO THINGS “RIGHT” FIRST TIME – OUR “**OPERATIONAL MATURITY**” MEASURE

Listed below is a road map of OE maturity followed for every project

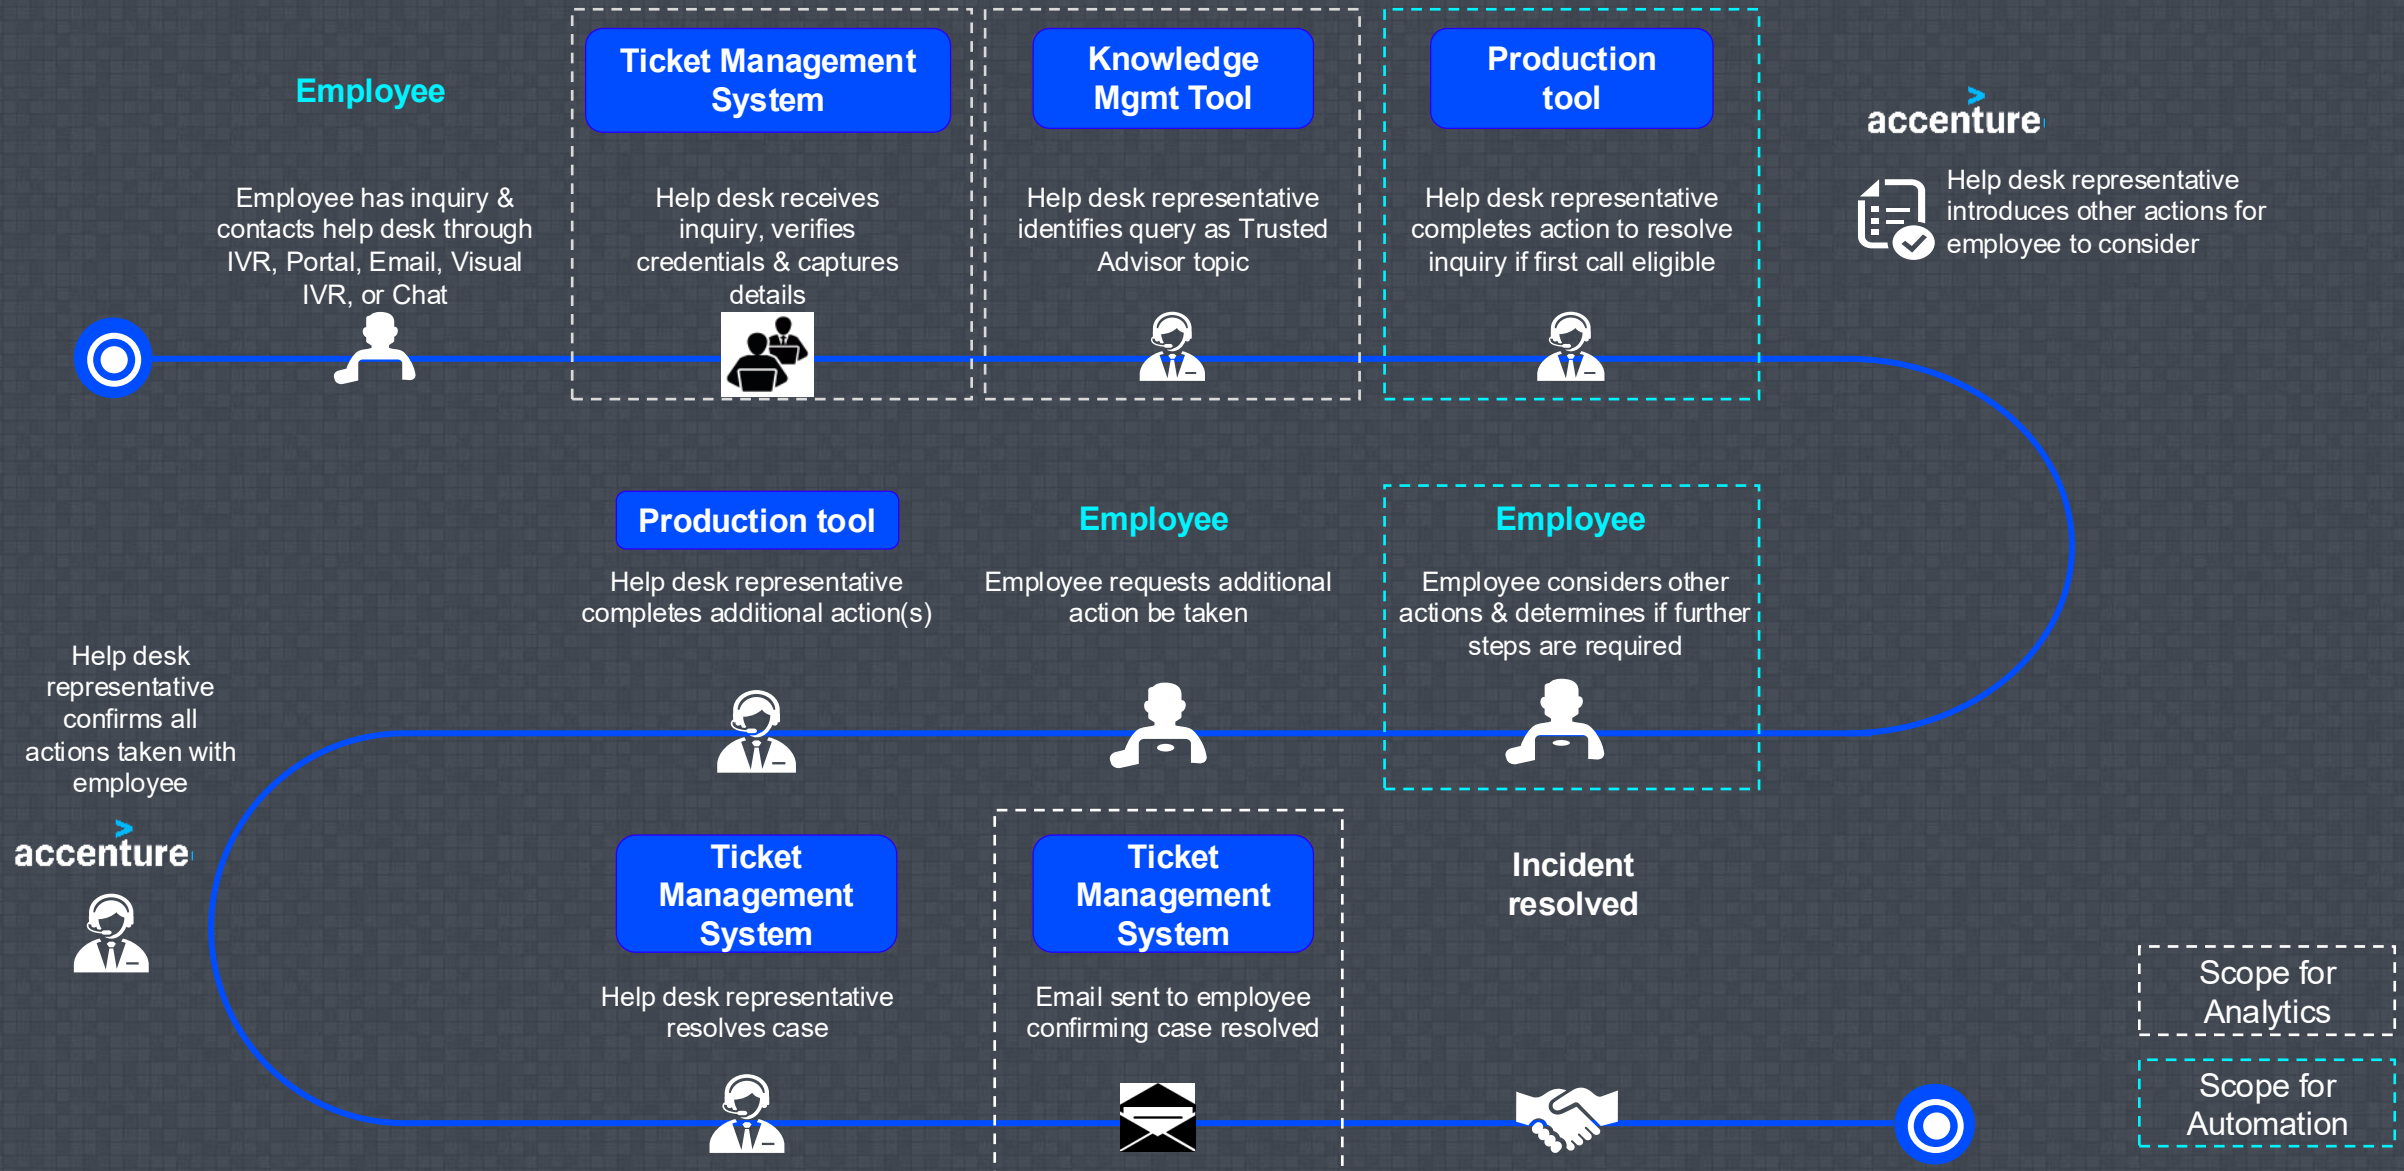

VALUE JOURNEY

Operational Maturity aims to create a mindset using structured methodology to drive **Measurable, Repeatable, Predictable** delivery operations and deliver Business Outcomes for our Clients.

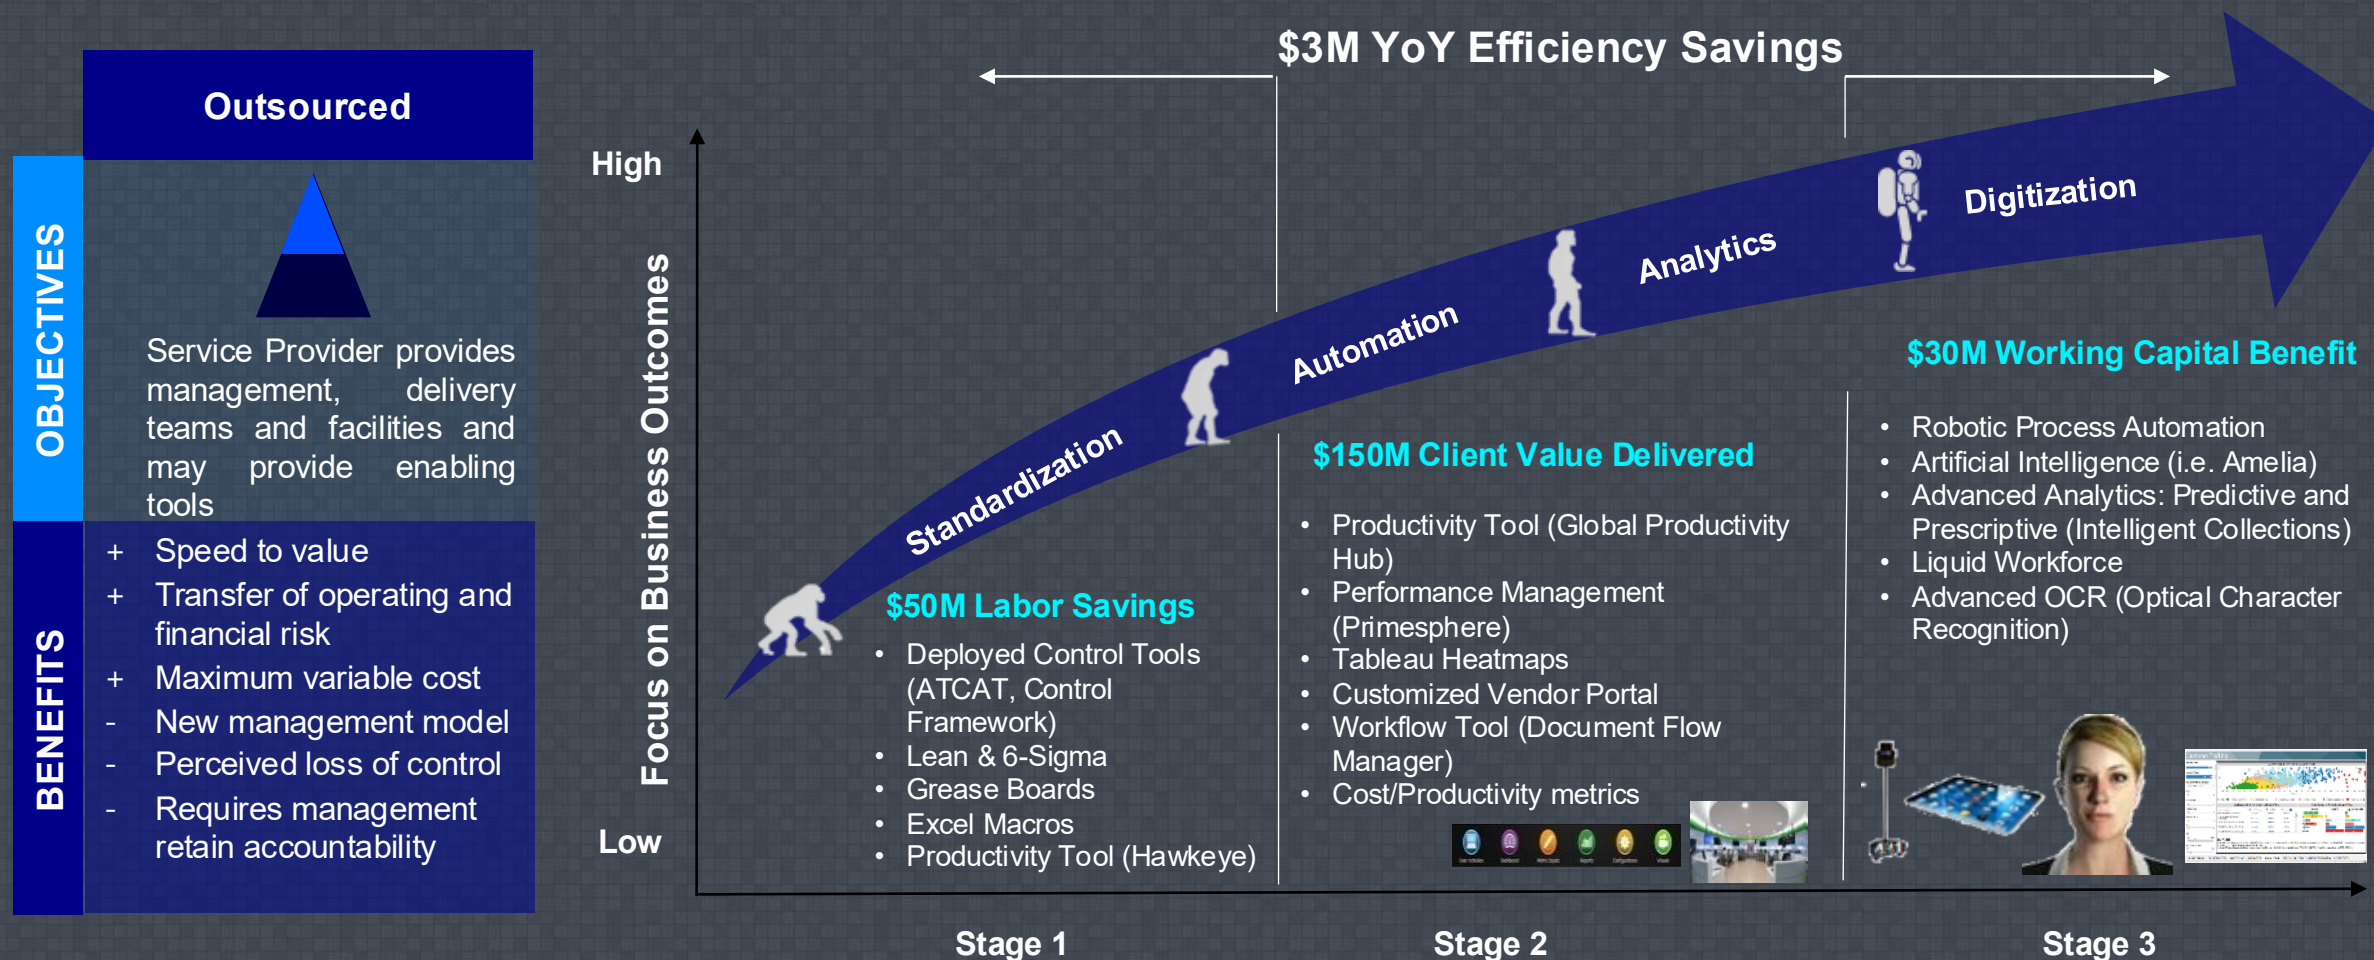

TRUSTED ADVISOR – ILLUSTRATIVE EXAMPLE

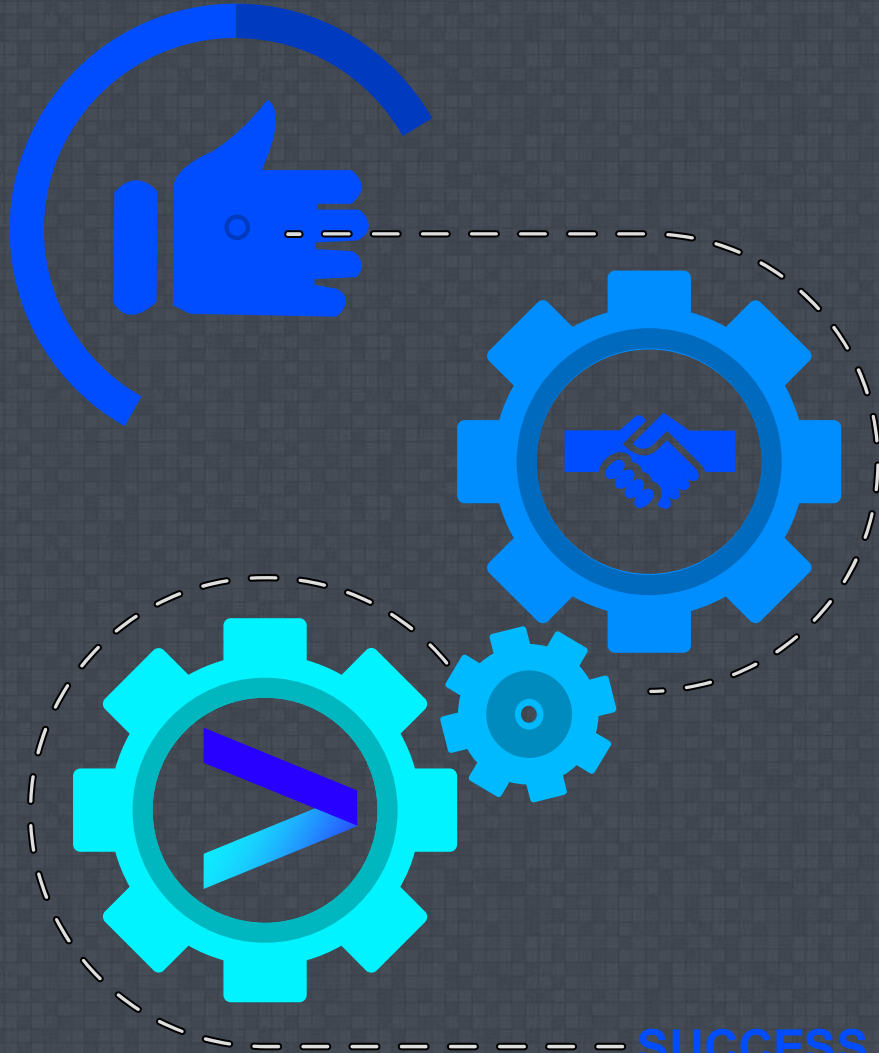

CASE STUDY 1- OUTSOURCED MODEL – TOP TIER OILFIELD SERVICE COMPANY

Accenture aimed to provide services to consolidate multiple geography operations to 4 DC's, through transformation journey.

SUCCESS STORY - ANALYTICS

A British multinational telecommunications company with head office in London, United Kingdom. It has operations in around **180 countries** and is the largest provider of fixed-line, mobile and broadband services in the UK, and also provides subscription television and IT services.

BUSINESS CHALLENGE

The client has been struggling with unpredictable peak volumes every year. The helpdesk is required to manage these volumes that are inconsistent largely due to market situations and legislative policies run through the risk of missing SLA's and losing customer satisfaction each year.

- Client reluctance to staff too many FTEs beforehand
- Wanted quick scalability and ramp down after volumes reduce
- Reduce risk on impact to customer satisfaction and other SLAs.

HOW ACCENTURE HELPED

Accenture helped through conducting a deep dive analysis on volume trends for the last few years.

- Variance % of volume was assessed as 5%-51%.
- Business required more than 25% additional FTEs to support volume fluctuations
- Non-availability of forecasted volumes led to non-availability of experienced agents to support peak volumes.
- Identified need to depend on technology and increase Accenture

HIGH PERFORMANCE DELIVERED

With an increase in Accenture margin on managing flexible shared FTEs from 20% to 50% the team was able to achieve the following –

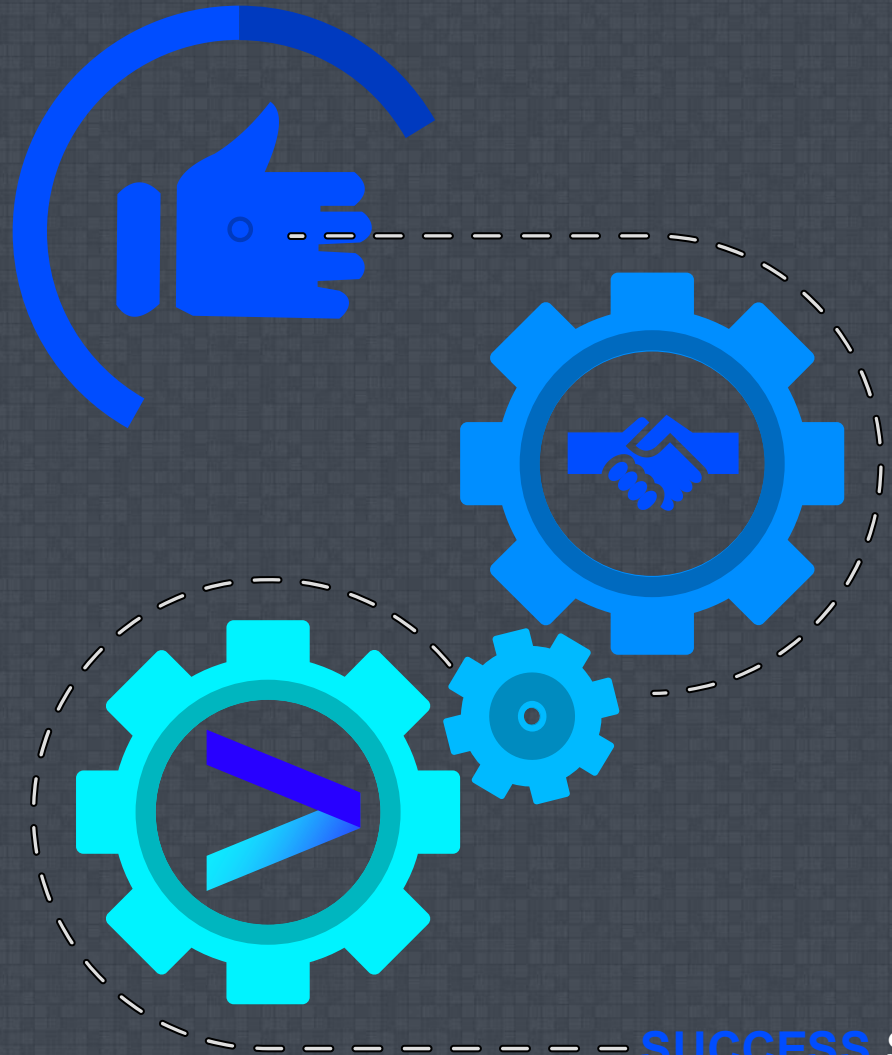

- Successfully handled volumes up to **151%** without any FTE additions.
- Improved agent efficiency leading to **AHT reduction from 10Mins to 8Mins.**
- **Reduced ASA** with lowest wait time achieved since inception in 2007.
- Highest CSAT score of **98.7%** was achieved.
- Led to FTE saves of **3.5 FTEs.**

The team has been managing any volume fluctuations without additional FTEs since then.

SUCCESS STORY

SUCCESS STORY - AUTOMATION

World's largest multi-channel consumer electronics retailer with stores in the United States, Canada, China, and Mexico. Our client is among the top ten retail websites in the United States and we have the number one customer loyalty program of its kind. There are more than 1 billion visitors to our website and **600** million visits to our U.S. stores each year.

BUSINESS CHALLENGE

- Reduce HR spend through waste elimination / efficiency gains
- Explore innovative ideas, technology, and understand HRO best practices.
- Help drive employee engagement and productivity by reducing distractions and effort.

HOW ACCENTURE HELPED

Accenture helped the client with implementation of several continuous improvement projects and automation levers.

- Contact Center Trusted Advisor
- Reduce Active Files Received in Error
- Improved HRSC Call Tree
- Short Term Incentive Corrections
- Audit Unit Number on UI Claims Payroll Cost Avoidance

Automation & Innovation:-

- Reporting Analytics - Tableau reporting
- Visual IVR (HR Connect)
- Annual Performance & Merit User Experience
- Redirect Reduction
- Moments that Matter

HIGH PERFORMANCE DELIVERED

We provided the following benefits to the client.

- **Contact Center Trusted Advisor** - Decreased the time it takes to get an answer for an Best Buy employee by 2 days
- **Reduce Active Files Received in Error** - Reduced volume by 35% - \$4,335 cost avoidance
- **Improved HRSC Call Tree** - 8,700 more callers per month able to get to the right place the first time
- **Short Term Incentive Corrections** - 47% decrease in STI Corrections per month
- **Audit Unit Number on UI Claims** - Recovered \$29,000 in paid penalties for Best Buy
- **Payroll Cost Avoidance** - 1.098M Overpayments Avoided. Cost Avoidance of overpayments caught by Accenture Payroll Team in FY17

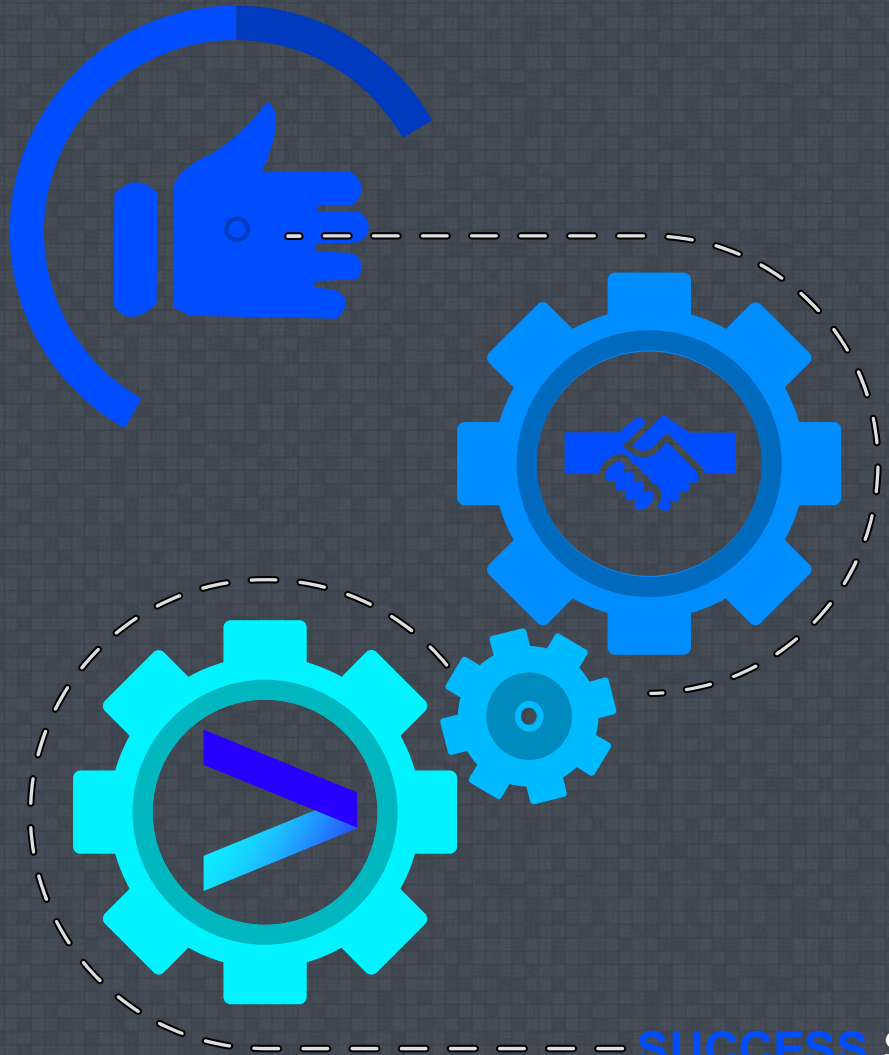

Automation & Innovation:-

- **Reporting Analytics - Tableau reporting**
- **Visual IVR (HR Connect)** – Decreased contact volume by 16%
- **Annual Performance & Merit User Experience** - User satisfaction improved by 9% YOY
- **Redirect Reduction** - Increased FCC by 13%
- **Moments that Matter** - One stop shop format led to 17% reduction in contacts.

SUCCESS STORY

SUCCESS STORY – VALUE STREAM MAP

A leading global investment bank with a strong and profitable private clients franchise. A leader in Germany and Europe, the Bank is continuously growing in North America, Asia and key emerging markets. With more than **78,000** employees in over **70** countries worldwide, the bank offers unparalleled financial services throughout the world. The bank is also Diamond Client of Accenture and is being associated for last **14** years. Because it is one of the Legacy Accounts with us, clients expected it to go through a huge transformation to our Operating Model delivering Cost Saving Ideas along with Employee Recognition.

BUSINESS CHALLENGE

- As a part of client transformation workshop, Client management wanted us to ensure that a consistent employee experience is provided to the people working for DB leading to controlled and reduced attrition.
- Increased volume of tickets where helpdesk was used as a mediator only for transferring and resolving tickets without any analysis.
- Standardize CSD Operations – Set-up Operational Level Agreement between Tier2 and 3 teams to increase the existing target of 80%.

HOW ACCENTURE HELPED

- Proposed Rewards and Recognition program to the clients. Built a plan on Reward nominations, Selection & Approval process. Proposed a governance structure for Monthly, Quarterly and Yearly Awards targeting 5% reduced attrition in FY'18.
- Helpdesk trained operations team on WQM tool to Log Tickets. Effective mid-march'17 Operations team is logging tickets directly on WQM which improved: Total Lead time/ cycle time reduction.
- Reviewed existing issue categories in the ticketing tool and refined them to the current procedures.
 - Collated the updated issue categories and proposed revised TAT as required. Highlighted any exceptions to the clients and agreed the process accordingly.
 - Reports Built and published as per the agreed TAT on daily basis to achieve and exceed the current target.

HIGH PERFORMANCE DELIVERED

- Clients Approved a total of **20,000 Euros** for the R&R program basis the plan shared by Accenture.
- Reduced volumes at CSD - Global
 - **VMD - 2.5%**
 - **Operations Internal Tickets (Bangalore) - 5%**
 - **Cold Caller - 4%.**
- Increased 5 day closure target from **80% to 96%** between Feb and June'17.

SUCCESS STORY

OUR PEOPLE ENGAGEMENT STORY

OTHER KEY COMPONENTS OF HELPDESK

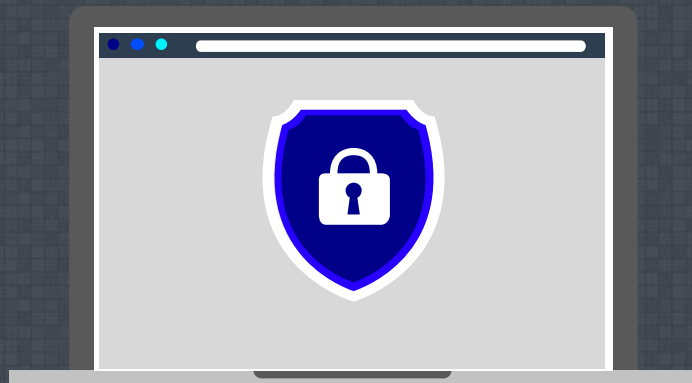

CLIENT DATA PROTECTION

At the core of today's digital world is data—including that of our clients. It is the lifeline of every client organization, and key to internal operations, competitive differentiation, innovation and new areas of growth. Safeguarding client data is one of the most fundamental and important responsibilities of Accenture, and protecting that data is essential to maintaining our clients' trust.

Accenture's Client Data Protection program plays an important role in establishing and assessing controls and standards to help you reduce business and financial risk to Accenture, our clients, and their clients, customers or employees. The program provides engagement teams with a standardized approach to implement comprehensive and consistent controls to protect client data.

We have **industrialized Accenture's approach** to enable you to deliver in this area efficiently—so that your engagement team can focus on what it does best.

ELEMENTS OF ACCENTURE'S MULTI-DISCIPLINARY APPROACH TO SECURITY

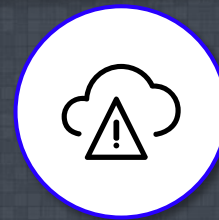

CLIENT DATA PROTECTION

- Client Data Protection program governs the stewardship of client information and systems entrusted to Accenture.

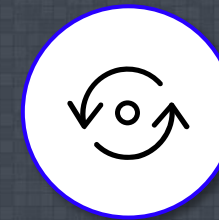

TECHNOLOGY

- Monitors and protects Accenture's overall technology environment.

RISK MANAGEMENT

- Continual monitoring and assessment of information security risk position.

AWARENESS AND TRAINING

- On-going awareness communications campaigns and mandatory training curriculum.

INCIDENT RESPONSE

- CIRT ensures events are remediated and corrective actions taken.

CLIENT DATA PROTECTION

We pride ourselves on long-term relationships with our clients that are built on trust and put us at the heart of their businesses. Every new client opportunity gives us more to protect, and so our culture must demonstrate stewardship of client information as if that information were Accenture's own. Each of our clients brings unique security requirements; our flexibility in engaging with them while maintaining our own standards is critical to protecting their data.

Accountability

Senior level responsibility for data protection and mandatory program adoption for all engagements

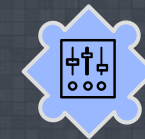

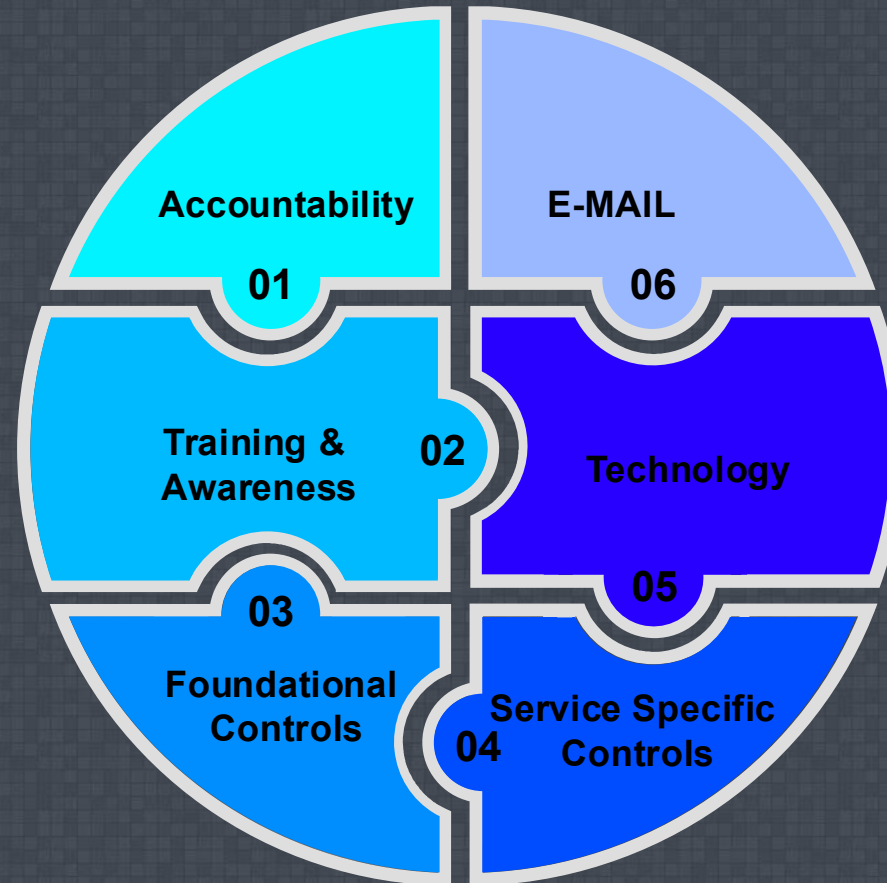

Training & Awareness

Mandatory data protection training provided on a regular basis

Foundational Controls

Required controls for storing, accessing, handling, transmitting, hosting client data

Subject Matter Expertise

Tools, processes, and subject matter specialist support for project teams

Technology

Technology support including hard drive and USB encryption, workstation configuration scanning, web filtering, and data loss prevention

Service Specific Controls

Service specific controls tied to risks inherent in specific types of work

BUSINESS CONTINUITY MANAGEMENT

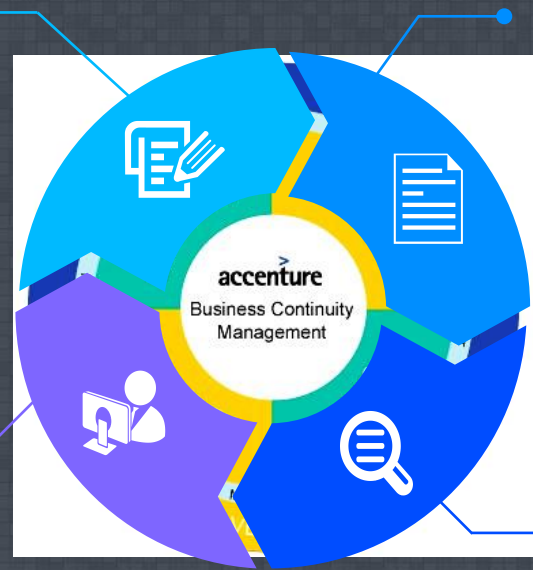

Accenture has a well-established **Business Continuity Management (BCM)** program with capabilities to enable response and continuity for unplanned business disruptions of varying severity and scope. There is a range of components which includes IT service continuity, crisis management and business continuity plans that support the resilience of Accenture's services, facilities, systems, and people.

DEFINITION

BCM - is a holistic management process that identifies potential impacts that threaten an organization & provides a framework for building resilience, capability for effective response that safeguards the interests of its key stakeholders, reputation, brand & value creating activities.

PURPOSE

Business Continuity Management is an integral part of the company's normal business operations and its culture of resiliency. The implementation of this policy is critical in order to meet strategic, operational, contractual, legal, regulatory and client requirements.

POLICY

Every project or function to be referred to as "BCM units" in the geographic locations, are required to develop, implement, exercise/test annually, maintain periodically and operate appropriate BCM strategies and plans in accordance with this policy.

SCOPE

This policy applies to:

- All BCM Units within each business/function in the geographic locations.
- All employees of the Company, including contractual employees as well as vendors / subcontractors that are important for the end to end delivery of critical activities for each BCM unit as per the impact analysis.

A photograph of a desk setup. In the center, a corkboard with a wooden frame is mounted on a light-colored wall. A white rectangular card is pinned to the corkboard with four red pushpins. The card has a blue rectangular area in the center with the words "Thank you" written in white, bold, sans-serif font. To the left of the corkboard, a bright red ceramic mug sits on the desk. To the right, a white cylindrical pen holder is filled with various colorful pens, pencils, and markers. A pair of green-handled scissors is also visible in the holder. In the bottom right corner, a stack of colorful sticky notes is partially visible. A desk lamp is positioned in the top right corner, casting a soft light on the scene.

Thank you
