& Consumer
Electronics

Automotive

Personalize | Automate | Monetize

Services

Design & Studio Support

- Design Research
- Styling & Surfacing
- HMI Design
- Infotainment
- Digital Twins
- Prototyping & Simulation

Body Design & Engineering

- Engineering Design and Development
- Design Verification and Validation
- Manufacturing Engineering
- Electric and Autonomous Vehicle Design and Development
- Post Development

CAE Simulations

- Multibody Dynamics
- Structural Analysis
- NVH & Acoustics
- CFD
- 1D- Model Based Design

Electro-mechanical Systems

- Circuit Design
- Embedded System Design
- Wiring Harness Design
- VA/VE Cost Analysis
- Strategic Sourcing
- Tooling Management

Virtual & Extended Reality

AR, VR, MR Experiences for

Usescases across:

- Repair & Maintenance
- Engineering Design & Modeling
- Worker Safety & Training
- VR Collaboration Center
- Virtual Showrooms

Services

Connected Cars

- 5G based TCU development
- V2X development/testing
- Cloud Agnostic, Multi-tenant platform
- Connected car feature development

ADAS/Autonomous Driving

- ADAS Application development
- Algorithm/ Framework Development
- Sensor Fusion
- System / Vehicle Integration

Electrification

- Energy storage, Battery, Traction motors system development
- Model based Systems Engineering
- Supervisory controls
- EMobility testing

Infotainment & Instrument Cluster

- IVI systems development
- UI/UX and HMI design and development
- BSP, Middleware and Application development
- Android/Linux/Hypervisor based solutions

Telematics & V2X

- Terminal Box software development
- Telematics feature validation
- V2X Application development
- Connectivity & Apps
- Cloud Based Services

AUTOSAR

- Development of BSW/ Application SW components
- Integration of BSW with application components
- AUTOSAR Classic & Adaptive implementations
- Tool development services

Services

Functional Safety

- Hardware Design & Development as per ISO26262
- Safety Analysis like FTA, FMEA, Reliability Prediction
- Legacy Software re-engineering & documentation for ISO26262 compliance.
- Software Safety Analysis (FTA, FMEA)

Model Based Design

- Plant, Sensor, Actuator Modelling
- Control Software Development
- Reverse engineering
- Model-Based Testing

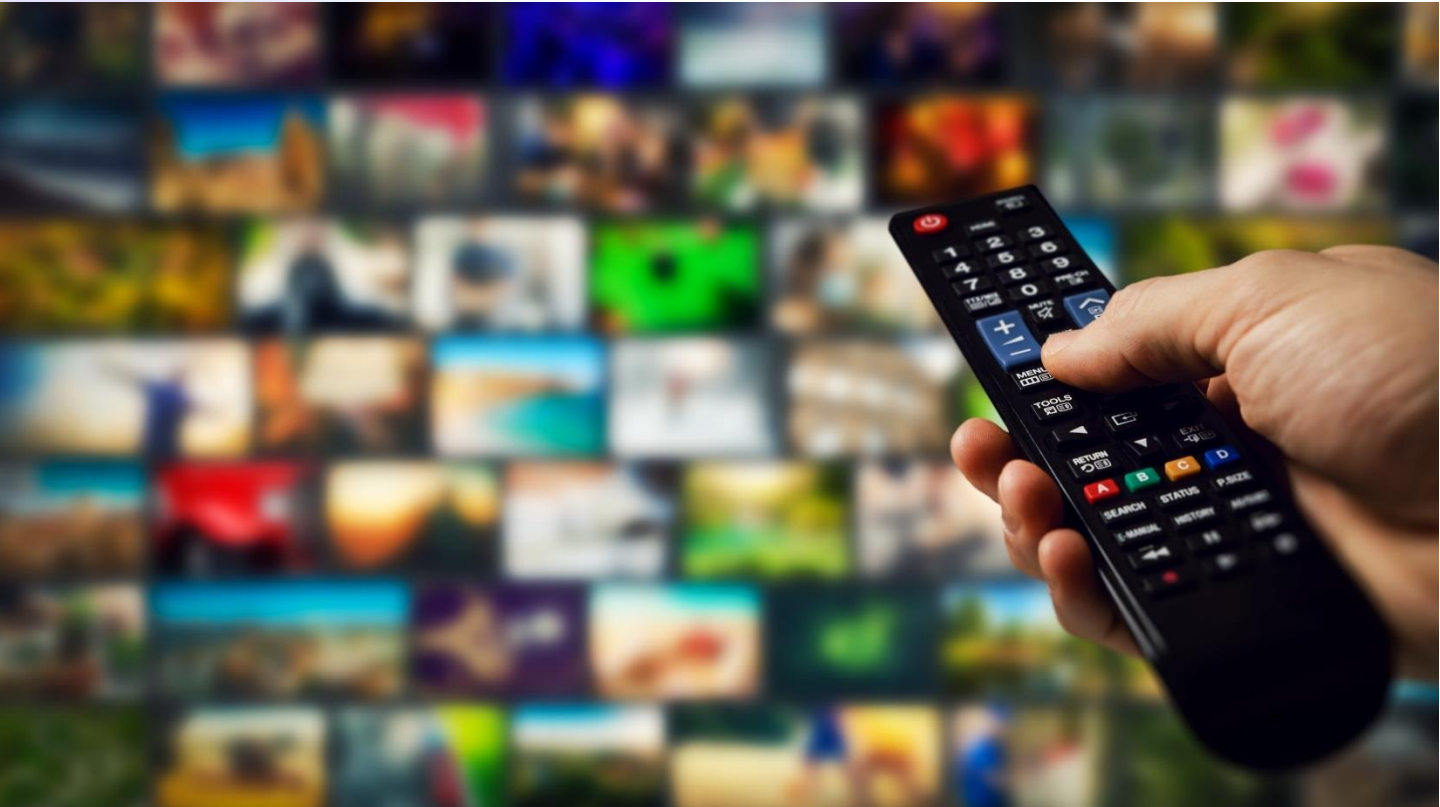

System Testing & HILS

- Test Case development
- Test Automation & test execution
- Simulated Testing and Scenario modeling
- Customized Test Racks and Fixtures

Cybersecurity

- Security Consultations
- Cybersecurity Process Compliance
- Cybersecurity Analysis
- ECU level Security Services
- Security Testing

Broadcast & Media

Personalize | Automate | Monetize

Services

[New Media Design Services](#)

- Media research
- UI / UX
- Device Design & Engineering
- Extended Reality – AR, VR, MR

[RDK](#)

- Consulting
- Device Engineering
- Process / Program Management
- Deployment
- Post Deployment & Operations Support

[AndroidTV](#)

- SoC Integration
- OEM Integration
- Integration - MSO Components
- Qualification,
- Post Deployment Services
- Cloud Services

[OTT](#)

- Consulting
- E2E OTT platform Development
- SI & Testing
- UI/UX Design
- Managed Services
- QoE Monitoring

[Network Transformation](#)

- Network Automation & Orchestration
- System Integration and Testing
- O-RAN SI and Certification
- 5G Edge use cases

[Adtech Services](#)

- Consulting
- Platform design and development
- Ad Operations
- Custom Solutions

Healthcare & Life Sciences

Innovative | Connected | Future ready

Medical Devices & IVD

Drug Delivery Systems

- Patent Evaluation
- Design and Development
- Research & Strategy
- Human Factors and Usability Engineering
- Branding and Packaging
- Regulatory Services

Human Factors & Usability Design

- User Research
- Testing & Compliance
- Risk Management
- Ergonomics Assessment
- Regulatory Guidance
- Design Recommendations
- UX and User Journey Design

Mechanical Design & Engineering

- CAD & Detail Engineering
- CEA / FEA Analysis
- Tool Design and Manufacturing Feasibility Checks

Medical Device Engineering

- Requirement understanding
- Concept building
- Architecture + Design + Development
- Pilot building
- Integration & Testing
- Transfer to production
- Pre-compliance testing

Value Analysis & Value Engineering

- Quality and reliability enhancements
- Low-cost product engineering
- Localization for emerging markets
- Performance enhancements

Regulatory Compliance

- EU MDR & EU IVDR Compliance
- Clinical and performance evaluation report consulting & writing
- Post-market surveillance
- Medical device packaging & labeling

Services

Application Modernization

- Application modernization consulting
- Application re-architecting
- Application re-platforming
- Technology migration
- DevOps | CI/CD enablement

Application Testing & Maintenance

- Product analysis
- Code-base analysis
- Test case development
- Test bed design
- Scenario simulation
- Load generation
- Packet analysis
- Automation strategy

Application Lifecycle Management

- Application lifecycle management consulting
- Application portfolio management
- Requirements management
- Configuration and release management
- Quality assurance & testing
- Continuous integration
- Application optimization

Solution accelerators

Digital Health Platform

- Quality and reliability enhancements
- Low-cost product engineering
- Localization for emerging markets
- Performance enhancements

TEngage

- EU MDR & EU IVDR Compliance
- Clinical and performance evaluation report consulting & writing
- Post-market surveillance
- Medical device packaging & labeling

Pharmaceuticals

Services

Pharmaceutical Regulatory Compliance

- Labeling
- Artwork
- Regulatory intelligence
- Regulatory submission
- Regulatory information management

Safety & Pharmacovigilance

- PV operation
- Safety solutions and automation
- Regional requirements
- PV consulting
- Quality assurance support

Medical and Scientific Writing

- Data management
- Medical writing
- Scientific writing
- Medical affairs

Solution accelerators

TEDREG

- Meticulous and regular monitoring of local, regional, and global regulatory information
- Rule-based automated daily update alerts and notifications
- Dashboards, bookmarks, and workflow management

Digital Therapeutics

- Multi-platform application development and maintenance
- AI/ML-based SaMD development
- Regulatory compliance
- Condition screening, management and treatment

Rail

Reliable | Safe | Connected

Services

Passenger Experience

- Brand Research, Identity & Strategy
- Rolling stock – Exterior & Interior design
- Station Architecture & Interiors
- Wayfinding & Signage
- Passenger Experience & Application design

Digitalization

- Passenger, & Crew Assistance
- Autonomous System Development
- IoT and Predictive Maintenance Solutions
- AI & Data Analytics
- Computer Vision and Video Analytics

Technical authoring and services engineering

- Maintenance and user manuals
- Illustrations, Translation, Remote tech support
- Costing support for Maintenance life cycle, spart parts.
- LRU/SRU List
- Warranty/DLP list

Rolling Stock & Systems

- Sub System Engineering
- Vehicle Engineering
- Signalling & Telecom
- Onboard & Offboard Electronic Systems
- Train Control and Management System (TCMS)
- Automated Test Equipment/Test Rigs

Design and Styling

- Design Research
- Styling, Surfacing and Design
- CMF and Livery Design
- Mockup Builds
- Extended Reality – AR,VR, MR
- Human Factors & Ergonomics

Systems engineering

- Engineering Design
- Tolerance Management
- Pipe Work Design
- CAE Validation
- Gap & Flush Analysis
- Electrical Cabling

Appliances and Consumer Electronics

Connected | Energy Efficient | Intelligent

Services

Digitisation of Appliances

- Mobile App development
- App Testing, Localization
- Device SW, Drivers,
- Sensor Integration
- IoT Platform development
- AI /ML Applications and Use cases

Consumer Research & Strategy

- Consumer & Design Research
- Market Analysis
- Trend Analysis
- India Entry Strategy
- Innovation Strategy
- Project Management
- Consulting

Product Design

- New Product Design & Development
- HF & Usability
- Digital Prototypes
- Digital Twins
- AR / VR Experience
- Connected Solutions
- UI & UX Design
